

Game Master League

- What is the story in your game? *

Ans- my imagining myself. The story of the game is basically that the boy needs to collect more and more amount of treasure to play in the levels ahead.

- What are the rules of the game? *

Ans- The rules are simple. One just has to collect the more and more points. The person playing should be careful that he/she does not hit the SNAIL or else the game will end.

- How many levels do you plan to build in the game in future? Give Details on what would happen at each level *

Ans- I plan to create many levels with different themes and harder obstacles ahead . After the road theme in this level I plan to create different themes like space,desert,jungle and more with harder levels and more obstacles.

- Upload the link of the game you have built *
